

DPS

HVM - HIGH VISIBILITY MARKER

Description

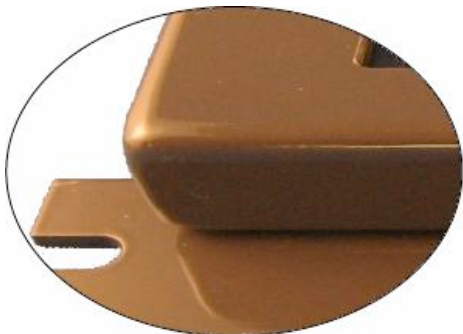

The DPS High Visibility Marker (HVM) is a replacement HVM for Wabtec EOT-07s. The FRA approved unit features 20 high intensity LEDs making it noticeably brighter than old style HVMs. The unit has a low profile design - just over 1" thick and is very easy to install.

Features

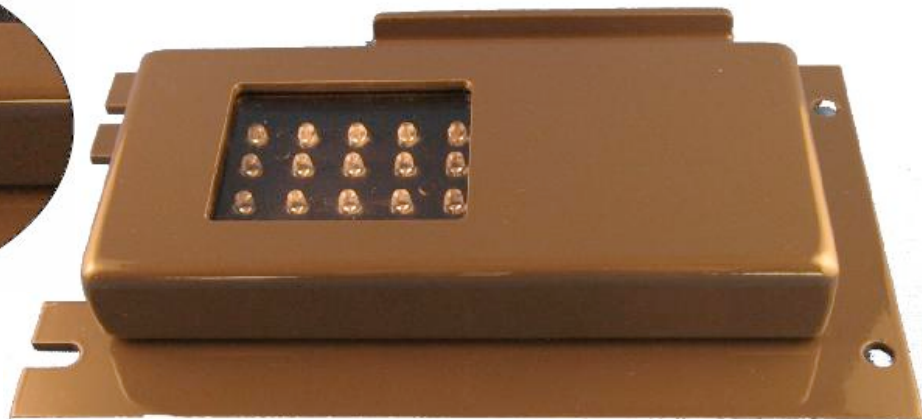

- FRA Approved
- Twenty high intensity LEDs
- Durable polycarbonate lens, easy and economical to replace
- Powder coated aluminum housing (choice of colors for orders of 10+)
- Low profile, high durability design

DPS 500 HVM
